DETAILED ACTION

Examiner's Statement for Reasons of Allowance

This Office Action is responsive to the Pre-Brief Appeal Conference decision filed on 4/12/07. Claims 1, 3-12, and 14-23 are pending. Applicant's arguments filed in the Pre-Brief Conference request have been fully considered and are persuasive, thus the former 35 USC 103 rejections have been overcome.

The following is an examiner's statement of reasons for allowance: Applicant's instant claims recite "the water supply valve is positioned above the detergent box...a hose configured to connect the detergent box assembly to the water supply valve...and wherein the detergent box assembly is provided under a top plate of the washing machine and the water supply valve assembly is provided over the top plate" in the independent claims 1 and 12. The closest prior art of record, Worst (US Patent No. 3,896,641) fails to teach a valve assembly that is provided above the detergent box assembly, whereby the detergent box is below a top plate of the washing machine yet the valve assembly is above the top plate, and the valve is in connection with the detergent box. In the Worst reference the valve assembly, fluidic switch 48, is below the top cover plate and fails to be above the detergent box.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

Figures 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application.

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: in Figure 3 Applicant fails to indicate reference number 82. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Conclusion
